SCRIPT:	00:00:06-00:00:12 My name is Adil Ben Kaddour, I hace 20 year old, I have a diploma in infographics and my hobbies are photography and video. 00:00:19-00:00:38 I am a self-taught professional in the field of photography, I have studies in this specialty. My love for this hobby is what made me learn. I watched tutorials on YouTube to learn how to set up videos. Today, I work well. 00:00:43-00:01:06 I bought my first camera in 2014 and I had to work all summer to buy it. I bought it for 2700 dirhams. I took pictures of my brothers in our house and then I went out to the street to take pictures, that's how I learned photography skills in a slowly pace. After that, I decided to dive into the world of video.		

	<p>00:01:07-00:01:16</p> <p>In Photography, you have to invest every coin in purchasing new material in order to respond to market demands and deliver good quality works.</p> <p>00:01:17-00:01:31</p> <p>What most characterizes my generation is that it makes their hobby their own profession. A generation that is not limited to studies but strives to develop their hobby to live on it, allowing you to study and work at the same time.</p> <p>00:01:32-00:01:42</p> <p>Currently, there is an important development in Morocco's audiovisual field, so there are several perspectives, and I am very optimistic.</p> <p>00:01:43-00:02:09</p> <p>I am a person who has started from the bottom, without help, I managed alone, but I am very ambitious and I want to go far. I want to work with great artists, in great foreign film works, etc. But first I have to finish my studies because I want to have my diploma. And who knows, maybe I'll get to work at Hollywood.</p>
