SLUGLINE:			
HEADLINE:	In order to enhance social relations in the Hafsiah district of the capital, a number of young men chose to develop their ideas into an association project aimed at encouraging citizens to participate in work and creativity by developing furniture for public places in the neighbourhoods.		
DATELINE:	Tunis, Tunisia - 08/02/2020		
SCRIPT:	00.15 - 1.36 * Aziz Issawi (Workshop Project Manager) The workshop is active in all age groups (the elderly and children). We are now in a square in the middle of four buildings, which is the place where this "victorious" child and his friends live. When we moved to the new headquarters of the workshop project, we discovered this square. The idea of this project is that this square should belong to the residents of the buildings who can come here to make things, plant plants, and express their skills in different ways. Through this project, we wanted to go in order to involve citizens in various projects
